

Trees in the city

Directed by: Massimiliano Sbrolla
Produced by: SD Cinematografica
Duration: 12'
Versions: 
Format: SD

The difficult life of the cities trees.

How they are important to render livable the metropolitan environment, how they are overlooked by the local administrations. In which manner the maintenance is organized and which are the precautions to adopt during the transplant.

A short journey to discover the arboreal estate of a capital city as Rome that, although it is every day under the citizen's eyes, most of all it is completely unknown.
