

Crater's pride

Format: HD

100 km off of Rome, we can find the largest crater in Europe: the lake of Bolsena. It was the center of a rich ancient population, the Etruscans, and this territory is now inhabited by people who really love their territory, and who do everything they can in order to preserve their traditions and their history, even in its most obscure and unsettling aspects. Like the story of the two not easily reachable islands at the center of the lake, dominated by obscure legends about brutal murders, cruel penances and magical doors to hell.
